

PRODUCT OVERVIEW

Fully automatic coffee machines

MAKE IT
Wonderful!

FRANKE

TRUE PASSION LEADS TO INNOVATION

Every Franke coffee machine is packed with true passion and 100 percent Swissness. During product development, we learn from the experiences of restaurant operators, study the needs of coffee roasters and coffee lovers, and work tirelessly to further improve our products.

Our broad, modular product portfolio offers the ideal solution for meeting every individual wish in terms of size, performance, operation and varieties of coffee drinks.

Close to our customers – around the world

Franke Coffee Systems operates its own offices in Switzerland (headquarters in Aarburg), Germany, Great Britain and the USA. In addition, select distribution partners represent us around the world. This global network makes it possible for us to address the local needs of our customers and offer them the best possible service – no matter where in the world they might be. This makes us the ideal partner for both independent restaurant owners as well as for customers operating chains on a national or international basis.

A200

ENJOYMENT THROUGH PERFECTION

The A200 is the professional machine for handling small to mid-sized capacities. An intuitive touch-screen offers as many as 18 different beverages. The machine guides operators through the cleaning process in a uniquely understandable and efficient way – even someone without any experience working with the A200 can operate it.

Two ceramic grinders work with high levels of precision for fantastic coffee. The high-performance steam spout produces milk foam in a flash. Additional beverages can be prepared with the optional capsule brewing unit. The FoamMaster™ guarantees milk foam just as if it were made by hand.

PURA

SIMPLICITY IN COFFEE MAKING

The Pura makes the preparation of classic coffees and milk-based drinks such as cappuccino, latte macchiato and hot chocolate as easy as can be. You can choose between fresh milk and milk powder systems.

The display features 12 languages. During cleaning, the operator is guided through the process by clearly understandable display images. All this makes the Pura a true all-rounder.

A600

ALL YOU NEED FOR PERFECT COFFEE

The A600 is the new standard in the mid-capacity range. The crystal clear touchscreen with its three customizable user interfaces provides an ideal basis for users to interact with the machine. A functional LED lighting concept gives you full control over all machine operations. At its heart, the machine has been optimized consistently for efficiency and

perfection. The practical bean hopper, the precision grinder with ceramic discs and the selection from among three different brewing units all combine to deliver perfect coffee. In combination with the optional FoamMaster™, Flavor-Station and optional cup warmer, the A600 is the optimal solution for any beverage needs.

FOAMMASTER™

VARIETY BECOMES PERFECTION

The FoamMaster™ has redefined professional coffee making at the very highest performance levels. Thanks to a startlingly large touchscreen, operating the unit becomes an experience in itself. Customizable user interfaces, adaptable menus

and the simple placement of advertising messages revolutionize interaction with the machine. Inside the unit, powerful components ensure you get the perfect crema, delicious milk foam and a virtually endless variety of flavors.

**PRACTICAL TOUCHSCREEN FOR
EFFICIENT OPERATION AND CUSTOMIZED
SET-UP CAPABILITIES**

**PRECISION GRINDER WITH DURABLE
CERAMIC BURRS**

M2M/TELEMETRY ENABLED

**SIMPLE, MENU-GUIDED
CLEANING**

**INDIVIDUALLY PROGRAMMABLE MILK FOAM
CONSISTENCY – JUST AS IF MADE BY HAND**

**FLAVOR-STATION FOR AUTOMATIC
DOSING OF THREE DIFFERENT SYRUPS**

SPECTRA S

PEAK PERFORMANCE – JUST AS YOU NEED IT

The Spectra is a powerhouse that consistently offers perfect coffee quality – even in large quantities. Three different display options enable optimal integration into your operation. The fully modular design allows every user to adapt the

machine to their specific needs, with the milk system and accessories configured into a unified system solution. For visual highlights, we offer the Spectra in two colors – neutral silver-gray or timeless, elegant black.

CHOCOLATE POWDER DOSING SYSTEM FOR ADDED VARIETY

UNIT AVAILABLE
IN TWO COLORS:
SILVER, BLACK

AUTOMATIC, HEIGHT-ADJUSTABLE
BEVERAGE SPOUT

VETRO 8 OPERATING UNIT

ALSO AVAILABLE AS A DOUBLE MODULE

SPECTRA X

NEW DIMENSIONS IN BREWED COFFEE

At only 30 cm wide, the Spectra X includes much more than you would expect from a high-volume brewer. You can select whether the brewed coffee is prepared directly from pre-ground coffee or

from whole beans using a grinder. The Spectra X automatically portions the ground coffee in the brewing chamber, where it prepares just the exact amount of coffee you need using four different brewing stages.

SPECTRA X-XL

THE POWERHOUSE FOR BREWED COFFEE

The Spectra X-XL is a compact yet powerful fully automatic coffee machine designed specially for preparing large volumes of brewed coffee. It is ideal for breakfast buffets, for self-service applications at roadside rest stops and in any catering

facility – in other words, everywhere where a large volume of top-quality coffee is needed in a short time. A four-liter brewing chamber and four-liter coffee reservoir are ready to dispense eight liters of brewed coffee at peak consumption times.

PRACTICAL CONTAINER FOR COFFEE POWDER WITH 3 KG CAPACITY AND LEVEL MONITORING

FOUR BREWING STAGES FOR EFFICIENT OPERATION – WITHOUT ANY FILTERS

HIGH-PERFORMANCE EIGHT-LITER CAPACITY

FULLY AUTOMATIC CLEANING PROGRAM

OPTIONAL COFFEE POT DISPENSING SPOUT WITH PULL-OUT SHELF

JUST AS INDIVIDUAL AS YOU ARE
