

LEONARDO 65 E

Electronic on-demand grinder: ideal for fine blends or for fresh ground coffee lovers

- 65 mm flat burr for high productivity (> 2,5 gr/sec).
- Conceived for medium workload (suggested daily consumption up to 3 kg).
- "High Speed" maintenance: extremely fast cleaning and replacement of the burrs, without the risk of losing the set grind size.
- "ACE System" (Anti-Clumps & Electrostaticity) to reduce the electrostatic charge of ground coffee and thus nullifies spraying and clumping.
- Stepless Micrometric Regulation (Patented by Conti Valerio s.r.l.) to ensure a unique grind regulation accuracy with infinitive adjustment points.
- 100% made in Florence, with reliable materials.
- New dedicated innovative touch display:
 - 2 programmable doses + manual dose
 - Grinding activation directly by display
 - Counter dose and start & Stop function
- Metal fork (white anodized), solid and suitable for any kind of portafilter; (hands free fork available, as optional).
- 1.2 kg bean hopper.

Burrs	
Type	Flat
Diameter	65 mm
Material	Hardened steel

Dispensing System	
Display Touch	Yes
Programmable doses	2
Dosing counter	Yes

Engine	
Traction	Direct
RPM	1650
Power	320 watt
Feeding	Single-phase

Various	
Available versions	Electronic
Stepless micrometric regulation	Yes
Bean hopper capacity	1,2 kg
Grinding capacity*	approx. 2,3 - 2,8 gr/sec

Dimensions	
Height	559 mm
Width	210 mm
Depth	285 mm
Weight	15 kg

*Grinding Capacity depending on the type of coffee, roast and granulometry

- Matt black
- White
- Silver
- Ferrari Red

Recommended grinding modes:

/ Espresso

1,2 kg bean hopper

Stepless micrometric regulation system

Multifunctional and extra-sensitive touch display with 2 programmable doses and "Manual" mode

ACE System

100% Made in Florence

Metal fork (white anodized)
