Our Story

45 anni di innovazione e passione per l'eccellenza

Da 45 anni Pavoni Italia è sinonimo di qualità, innovazione e design al servizio dei professionisti. Ogni prodotto è progettato con l'obiettivo di rispondere alle esigenze di chi lavora con passione, precisione e creatività ed è il risultato di una continua ricerca e una stretta collaborazione con i migliori pasticcieri, chef e maestri del settore a livello globale. Siamo orgogliosi di vantare una rete di collaborazioni con i professionisti più prestigiosi del mondo, che ogni giorno scelgono Pavoni Italia per le loro creazioni.

La nostra azienda è nata nel 1980 come produttrice di contenitori in plastica per la panificazione e da allora è cresciuta e si è evoluta, diventando un marchio riconosciuto a livello internazionale.
Con oltre 7.000 prodotti Pavoni Italia offre una gamma completa di attrezzature professionali: dagli stampi in silicone, all'attrezzatura per il cioccolato, dalle soluzioni per la surgelazione a quelle per la cottura. Ciò che ci distingue è la continua dedizione al cliente, l'ascolto attivo delle sue esigenze e la nostra capacità di anticipare le tendenze del settore.

L'impegno nella ricerca e nello sviluppo è alla base del nostro successo e ci spinge a innovare costantemente, mantenendo la nostra missione: offrire strumenti che non solo soddisfano, ma ispirano la creatività dei nostri clienti. Ci ispiriamo ai nostri valori: un impegno reale verso il cliente, una dedizione che nasce dall'ascolto e da un rapporto di fiducia reciproca. Amiamo quello che facciamo e siamo orgogliosi di essere scelti dai migliori professionisti del mondo.

We are proud to have a network of collaborations with the most prestigious professionals in the world, who every day choose Pavoni Italia for their creations.

Stampi per vaschette gelato
Moulds for gelato pans

Top Ice è la linea di stampi in silicone per la decorazione delle vaschette gelato. Cinque trame diverse e due formati che impediranno sbalzi di temperatura e fastidiose patine ossidative sul vostro gelato.

Top Ice is the line of silicone moulds for decorating gelato pans. Five different textures and two sizes that will prevent temperature changes and annoying oxidative films on your gelato.

Top Ice

Top Ice è la linea di stampi in silicone per la decorazione delle vaschette gelato. Il modo nuovo di creare una vetrina capace di catturare lo sguardo e una soluzione ideale per la conservazione: Top Ice annulla l'effetto "defrost", evitando che gelato subisca sbalzi di temperatura e impedisce la formazione della fastidiosa e antiestetica patina sul gelato, dovuta all'ossidazione. Questo significa più libertà e meno lavoro. Cinque trame diverse, tutte da interpretare in modo personale, per dare a ogni gelato l'aspetto che si merita. /
Top Ice is the line of silicone moulds for decorating gelato pans. The new, simple and quick way to create a shop window able to catch the eye: Top Ice nullifies the "defrost" effect, your gelato will not be subjected to sudden changes in temperature, but kept stable. It helps avoiding the formation of that pesky, unaesthetic coat on the top of your gelato, due to oxidation. The final result: less work, more freedom. Five different textures, all to be interpreted and decorated in a personal way, to give each ice cream the look it deserves.

Serie N
N Series

Fra impilabile e sovrapponibile c'è una differenza di 180°. Se sovrapposti in una direzione i contenitori serie N possono essere facilmente inseriti l'uno nell'altro, recuperando spazio. Con una rotazione di 180°, però, possono essere impilati per lasciare al loro interno il contenuto e migliorare così la gestione delle merci, i tempi di movimentazione e la logistica generale. Sono disponibili con pareti piene o forate.

There is a 180° difference between nesting and stacking. If positioned in one direction, N series crates can be readily nested, thus saving space. However, by rotating by 180°, the pieces can then be stacked so that the content remains inside them, thus making for optimal management of goods, handling times and general logistics. These pieces can be provided with closed or perforated sides.
