PRODUCTIVITY, COOKING QUALITY, RELIABILITY.

The ingredients of your success.

Successful banqueting is achieved through volume, rhythm, punctuality and precision. CHEFTOP MIND.Maps™ ovens are like you: they do not accept compromise.

Unox' most advanced technologies allow you to use it with any food load, whether cooking or retherming.

Technology that becomes Intelligence: thanks to the exclusive and patented ADAPTIVE.Cooking™ mode, CHEFTOP MIND.Maps™ understands the result that you have in mind, interprets your settings, registers the variations of temperature and humidity, understands the quantity of food that is in the oven and optimizes the cooking process to achieve exactly the results that you expect.

Because, in the most important moments, no detail can be left to chance.

PRODUCTIVITY.

UNOX ACCESSORIES.

In the kitchen, a close-knit team makes the difference.

Trolleys and Baskets

Trolleys and baskets enable you to prepare your food load outside the cooking chamber and then insert it all at once with a simple action. It is a perfect way to quickly cook full loads and easily move them inside the kitchen, reducing the time the oven door is open, enhancing its efficiency.

Thermocover

Food preparation for hotels, catering and banqueting requires cooking in advance and the ability to keep the courses at the right temperature before serving. The Thermocover is perfectly suitable for both warm temperature holding or cook-chill processes. Put the Termocover on the trolley right after you extract it from the oven to ensure maximum hygiene and food safety.
